

**Lieutenant General Hamdy Wahiba visits
factory sector within the framework of the strategy of
deepening domestic industry**

Chairman of the Arab Organization for Industrialization (AOI) Lieutenant General Hamdy Wahiba expressed his happiness for the progress achieved by the production lines in the company of modern technology. This came during the meeting held on the sidelines of the visit he paid to the AOI factories with the delegation accompanying him within the framework of the strategy for reviving local industry on 14/3/2012.

Within the framework of the strategy of promoting local industry, Chairman of the Arab Organization for Industrialization (AOI) Lieutenant General Hamdy Wahiba heading a high-ranking delegation of the managers of the AOI sectors paid a review visit to the production lines in the AOI factories in Gisar Suez. The delegation was received by Dr Nader Riad, chairman of Bavaria Group.

The visit's activities started with an open discussion followed by a review visit to the new production lines that apply modern technology of welding using robots. This technology is applied for the first time in Egypt and the Middle East. Moreover, this kind of production lines is used for the first time in the field of heavy distinguishing equipment worldwide. The visit was concluded by a lunch during which an open discussion took place over the estimation of the pivots of promoting the national industry.
